

Healthy Old Age Brings Happiness

Simple Remedy Promotes Health By Overcoming Tendency to Constipation

Advancing years impair the action of the vital organs. Old age should be the period of greatest happiness, but good health is necessary. Constipation should not be tolerated—it is often the direct cause of ill health.

Headache, belching, flatulency, heart, indigestion after eating and other symptoms of constipation can be readily relieved by the use of a simple laxative compound sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. Mr. J. H. Bristol, 1415 Geddes Ave., Ann Arbor, Mich., who is 63 years old, says "Dr. Caldwell's Syrup Pepsin is the best remedy I ever used for constipation and I always have a bottle of it in the house to use when I feel the need of it; it never disappoints."

Dr. Caldwell's Syrup Pepsin is a mild laxative preparation, positive in its effect, acting easily and naturally without griping or other pain or discomfort. For over a quarter of a century it has been the standard household remedy in thousands of homes. Druggists everywhere sell it for fifty

MR. J. H. BRISTOL

cents a bottle. A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Illinois.

LOST PARTS OF THREE FINGERS

Commissioner Donohue Awards New London Man Compensation for Severe Injuries—Will Receive Over \$300 in Weekly Payments of \$10—Finding Filed in Superior Court Office Tuesday.

Compensation Commissioner James J. Donohue has awarded James Meigs of 91 Golden street, in New London, compensation for the loss of parts of three fingers on his left hand. Meigs was employed by N. F. Ball of Groton. The hearing was held in Commissioner Donohue's office on Friday, May 19, at 10 a. m., and the finding was filed in the office of the superior court on Tuesday.

From the testimony it is found that the respondent conducted a pattern making establishment in Groton, and on the 28th of February, 1915, the claimant was at work at a bus planer and started to plane off a piece of mahogany about two feet long and in doing his left hand dropped down on the cutters of the planer, which injury resulted in the loss of parts of three fingers of the left hand as well as an injury to the index finger.

The hearing was called for the purpose of definitely deciding the specific character of the injuries received and the amount of compensation due the claimant.

It is found upon examination that the specific injuries received by the claimant are as follows: Loss of one-

third of the second finger, 10 weeks, loss of two-thirds of the third finger, 12 to 14 weeks, loss of two-thirds of the fourth finger, 13 to 15 weeks; total, 40 weeks. Disability because of injury to the index finger, 10 weeks; total number of weeks, 54 weeks.

It was agreed that the average weekly wages of the claimant were \$24.30, and it was found that the respondent had paid the claimant during the early period of his disability, before he returned to the respondent's station at half pay (\$12.15) for nine weeks which amounted to \$109.35, which amount was deducted from the total amount due (\$243.00), leaving a balance of \$133.65 due the claimant, and it was further agreed that the respondent should pay the claimant \$10 weekly until the said \$133.65 had been paid.

The respondent also agreed to assume payment of the medical, surgical and hospital bills. Commissioner Donohue has decreed that the respondent should pay the claimant ten dollars weekly, first payment to be made at once, said payments to continue until the amount due, \$133.65, shall have been entirely paid.

VETERANS BEGIN ANNUAL VISITS TO SCHOOLS.

Comrades George R. Sanders and Edward Willey Spoke to Children on Memorial Day.

As representatives of Sedgwick post, G. A. R., Comrades George R. Sanders and Edward Willey began their visits to the schools Monday afternoon, in anticipation of Memorial day, addressing the pupils at East Great Plain school, Miss Maude G. Lathrop and Miss Mary Daley, teachers.

The children gave the salute to flag. After the addresses, the 40 pupils entertained the visiting Grand Army men with patriotic songs and three little girls, Alice Bogus, Marjorie Merry and Cleora Huntley, sang "Tenting on the Old Camp Ground," and the Battle Hymn of the Republic, while Master Richard Holden sang "The Vacant Chair," Miss Lathrop, principal of the school had charge of the exercises.

GIVEN SURPRISE PARTY AT JOLIET, ILL.

Neighbors Present Miss Harriet H. Hall of This City an Ivory Hand Mirror.

Miss Harriet H. Hall, R. N., of Norwich, was surprised at the residence of her sister, Mrs. Albert S. Johnson, 256 Draper avenue, Joliet, Ill., Thursday evening by the neighbors. Mrs. Clow, in behalf of the guests presented Miss Hall with an ivory hand mirror. To honor Mrs. Johnson's birthday, May 22, Mrs. Johnson presented her with a casserole, as a gift from the neighbors. Music and games were enjoyed by all.

ANNUAL REPORT OF CITY MILK INSPECTOR

One Hundred and Fifty-Five Stables and Dairies Visited During Year.

One hundred and fifty-five stables and dairies were inspected by Dr. D. J. Shahan, city milk inspector, during the past year and he found the interiors as a rule clean, but that the exterior premises in many cases are poor.

Dr. Shahan's annual report follows: Since the last report your city's milk inspector between one and two hundred samples of milk and cream have been collected from dairies, dairies and stores, for laboratory analysis. Of this number, nearly all samples indicated good milk, with the exception of one product, the product of which was arrested and fined for selling watered goods. One hundred and fifty-five stables were inspected. The interiors of the same were as a rule, good and clean; but the exterior premises were, in many instances, especially in the case of abominable. Continuous inspection is the price of clean milk. Twenty-one dairies and stables were notified to clean up and keep clean, or suffer the consequences. Two dealers were obliged to suspend peddling for 24 hours each through uncleanness. Most of our producing herds are in good condition and well cared for. The price of milk delivered at the door, averaged in this city, 7 cents per quart; that of light cream 40 cents.

Farmers heretofore, owing to the high prices of grain, labor and slugs, are agitating for organized protection, and an ultimate increase in the price of milk products is to be expected. There is no prospective scarcity of milk in this vicinity, as the supply is greater than the demand. We get our product from 12 townships. No famine in that line need be dreaded, since from the standards set by the American Association of Dairy, Food and Drug Products, and the United States Department of Agriculture (No. 20, 1914), condensed milk, evaporated milk, and concentrated milk, are as good as fresh milk for most purposes, and may be found at the nearest grocer's at a reasonable price.

AT THE DAVIS THEATRE

Vaudeville and Moving Pictures.

Another big bill of Keith vaudeville and Triangle photoplays greeted the capacity houses at the Davis theatre on Monday afternoon. The program for the first half of the week comprises a sensational athletic novelty by the Great Reklamo, and Lewis & Murri, two very attractive young ladies, appear in an instrumental and vocal act that got a big hand on Monday. The feature attraction was the comedy sketch, "For Love of Mike," presented by James & Co.

The feature photoplay was "The Stepping Stone," a two-part Ince production with Frank Keenan and Alan Boland in the leading roles. The Keystone comedy was "Buckling Society" and provided fun in plenty for all.

Meriden—William G. Atwater celebrated his 62nd birthday at his home Monday with a family reunion.

NOW IS THE TIME TO PLACE SCREENS.

Monthly Bulletin of State Board of Health Offers Suggestions For Extermination of Fly.

The May bulletin of the State Board of Health issued on Tuesday urges the extermination of the fly. On the third page of the bulletin is the following letter signed by the editor:

To the Citizens of Connecticut: The State Board of Health Bulletin has been published regularly for the last thirty years. During most of this time it contained information and statistics of particular interest to physicians, health officers and registrars, but during the last few years, owing to a public demand for more general information on health subjects, it was necessary to enlarge the publication from time to time. With this issue it is still further enlarged and we are glad to do so, because we appreciate that the knowledge of danger without the knowledge of how to avoid danger is a sorry plight.

Almost every one of us has experienced the annoyance of the house fly, the mosquito or the tick. These insects are dangerous to the health, and the milk and food consumed may cause illness. So now, what everybody wants to know is how to get rid of the fly and mosquito in the house. How to avoid the danger of the carrier of disease, and how to assure one's self that milk and food is safe and wholesome.

This bulletin will supply this information and much more of a similar character. It shall be our endeavor to make it of interest to you, by suggestions and cooperation, can be of great assistance. Contributions and comments are welcomed and will be gladly answered by the Editor either personally or in the columns of the Bulletin.

Put Up Screens!

Until the fly is exterminated, a reasonable amount of protection can be secured by screening the home. Now is the time to place your screens. A June fly is as dangerous as an August fly.

Dr. Samuel G. Dixon, commissioner of health in Pennsylvania says about the fly: "It is obvious that bacteria introduced from fly contact with food, or with the nipple of the nursing baby, or food containing bacteria from other sources, are the likely causes of a large proportion of our annual death harvest among young children."

The Yellow Band.

Whooping cough caused the death of 141 children in Connecticut last year—many more were maimed for life from the effects of this disease. One hundred and forty mothers are mourning the loss of their children from the effects of this disease. Even physicians thoughtlessly advise parents to take their children affected with whooping cough to the mountains or seashore, and neglect to caution them about exposing other children. Summer time is coming—the children will be at the beaches and hotels and children will play together. Why not recommend that the child afflicted wear a yellow band on the arm as a warning to other children? The yellow band compulsory in lieu of home quarantine, and find it acceptable to the people and more satisfactory in preventing the spread of the disease than the prolonged, partially observed quarantine.

Reporting By Physicians.

Infants having diseased eyes. Section 2335 of the General Statutes reads as follows: "Should one or both eyes of an infant become inflamed or swollen or red at any time within two weeks after its birth, the midwife, nurse, or attendant having charge of such infant, shall report in writing, within six hours to the health officer or board of health of the city, town or borough in which the parent of the infant reside the fact that such inflammation, swelling, or redness of the eyes exist. Every person violating the provisions of this section shall be fined not more than two hundred dollars."

Diseases of a venereal nature. Section 2334 of the General Statutes reads as follows: "Every physician shall report in writing every case of chancroid, syphilis, gonorrhea, leprosy, smallpox, diphtheria, membranous croup, typhoid fever, scarlet fever, diphtheria, or any other contagious or infectious diseases occurring in his practice, to the health officer of the town, city or borough in which such case occurs, within twelve hours after his recognition of the disease, provided in reporting any disease of a venereal nature, the name of the patient suffering from the same shall not be disclosed. Every person who shall violate this provision of this section shall be fined not more than twenty-five dollars."

The venereal diseases to be reported include: Erythema, chancre, chancre, and gonococcus infection of any kind (including gonococcus arthritis), irrespective of the bilious or degree of contagiousness of the disease at the time of diagnosis. Reports of cases of venereal diseases are made solely for statistical purposes, without revealing the identity of the patient, and no attempts will be made by the local health authorities to follow up the individual cases. Physicians are requested to make

DAINTY AND DELIGHTFUL

These charmingly, beautiful white fabrics are specially suitable for graduation gowns and for the pretty Summer frocks. The weaves are all new and popular—they are sheer and dainty, and well adapted to the newer styles which are so becoming to the youthful figure. A brief description of some of these pretty novelties follows.

Debutante Silk 69c a Yard

It's a combination of the finest cotton and pure silk which insures durability as well as beautiful finish. It is a novelty weave with slightly open effect, and is very beautiful. Just what is wanted for a "best dress."

Marquessette and Crepe de Chine 59c a Yard

Two weaves which have all the appearance of the all-silk fabrics and yet possess the sturdiness given by fine cotton. They are both charming weaves—soft and with exceedingly handsome finish.

MERCERIZED BATISTE, in various qualities, is a favorite this season, and at the prices, 25c 39c and 50c a yard, is inexpensive as well as attractive. PLAIN COTTON VOILE too, is used extensively and is unusually good for blouses, as it launders beautifully. We have it in plain white at 25c and 39c. PERSIAN LAWNS and ORGAN-DIES, the older standbys, come in for their share of the attention, at prices ranging from 20c to 50c a yard.

The Reid & Hughes Co

In their reports of cases a statement of the diagnosis (whether syphilis, chancroid or gonococcus infection) and of age, sex, date of birth, nationality, and social condition (whether single, married or widowed), with special care in giving the date of birth as this datum is the chief means of recognizing duplicate reports. Local health officers should keep all data on file.

The State Board of Health will examine specimens for diagnosis free. Outfits and directions for obtaining specimens can be obtained from the State Board of Health Laboratory, at Middletown, Conn.

Folders on the personal care of venereal diseases will be furnished to physicians for distribution to their patients, and can be obtained free of charge from the State Board of Health.

MOTION DAY LIST IN COMMON PLEAS.

Many Matters Disposed of by Judge Charles B. Waller.

Judge Charles B. Waller presided at a motion list session of the court of common pleas in New London Monday afternoon at 2 o'clock. The court heard motions for reinstatement of cases discontinued at the calling of the docket, May 3, heard other motions in several cases and assigned cases.

The following cases were restored to the docket either unconditionally or temporarily: James Woman vs. Anthony Piro et al.; Dennis & Bro. vs. American Park Construction Co. et al.; Reuben Lubchanski et al. vs. Frank H. Redden; Elanette M. Reed vs. Henrietta Waskiewicz; Antonia Gianocci vs. G. Thomas; Leon Skawinsky vs. Felix Ziminski; Emma F. Mumford, administrator, vs. Henry A. Sherman; The Swinehart Tire and Rubber Co. vs. Mardon S. Alyn; Sosa Co. vs. W. R. Maran; Jeremiah Sullivan vs. Albert M. Bonitz; L. A. Keith vs. Charles K. Smith; Frederick Mack vs. Charles K. Smith; A. S. Spaulding & Co. vs. Charles H. Humphrey; Nora McCrohan vs. Patrick Daley; Stanley & Patterson, Inc. vs. O'Neill; O'Neill & Rabinovich vs. Nathan Pomerantz; Goodwin & Siegel vs. Nathan Pomerantz; M. B. Schuenen & Sons vs. Nathan Pomerantz; N. J. Miner vs. Central Vermont Railway Co.; Central Coal Co. vs. Michael O'Connell.

The following matters on the motion list were disposed of:

A demurrer was argued in the case of Henry Gardner et al. vs. Anna M. Walker. The cases of Frank E. Hyde vs. Charles S. Storms, argument of demurrer; William H. Jennings vs. John E. Foley, argument of demurrer; Charles W. Denison et al. vs. Jessie A. Knapp, motion for more specific statement, and H. B. Lamb vs. Clinton Gurnee et ux, judgment on default entered, were continued.

Cases Assigned.

The following cases were assigned for trial: At New London, Thursday, May 25—Mary Sylvia vs. William H. Casey.

At Norwich, Saturday, June 3—Thomas Square garage vs. Napoleon B. Lewis; Anna F. Strong vs. Nettie Smart.

At Norwich, Monday, May 29—William F. Bailey vs. Herbert F. Howe. At Norwich, Saturday, June 3—Gabriel Tomask vs. Tawel Skindzier et al.; Richard O. Libby vs. J. E. Lorgan.

At Norwich, Monday, June 5—Mary R. Lyons vs. Marianne Walsh.

At New London, Saturday, June 10—Alfred L. Russell vs. Raymond Cape. At New London, Saturday, June 17—Asahel R. DeWolf vs. James D'Atro; Asahel R. DeWolf vs. Joseph Bonee.

CONGREGATIONALISTS TO HOLD 20TH ANNUAL

General Association Will Meet in New Haven Next Month.

The annual meeting of the General Association of Congregationalists will be held at the Danbury Place hotel, New Haven, June 6 and 7, 1916. The session will open at 10.45 a. m. The moderator, the Rev. Edward M. Pack-

ard of Stratford, will deliver an address on Personal Religion. In the afternoon, at 2.30 o'clock, the general subject will be The Logical Implications of the Reformation and Their Realization Today, treated as follows: In the Field of Theology, Dean W. F. Penn of Harvard Divinity school; in the Field of Polity, the Rev. Charles A. Dinwiddie, Waterbury; and in the Field of Art, Professor A. D. F. Hamlin of the Columbia School of Architecture.

Tuesday evening, June 6, at 7.45 o'clock, the Hon. William Howard Taft, of the Yale Law school, will speak on Our International Opportunity. Wednesday morning, June 7, at 10 o'clock, there will be a discussion of The Program of the Religious Education Board. The Rev. Frank M. Sheldon of Boston will speak on What the Boards Propose, and the Rev. Benjamin S. Winchester of New Haven on

What the Churches Need. A special feature of the meeting will be The Supper and Social Hour, Tuesday evening, from 5.30 to 7.30.

The devotional service Tuesday evening will be led by the Rev. Dr. Rockwell H. Potter of Hartford. The Rev. Joseph H. Twichell, Jr., of Danbury will speak Tuesday afternoon on Is the Pew to Blame for Poor Sermons? This will be the 20th annual session.

Celebrated Eighteenth Birthday.

About 18 young friends pleasantly surprised Viola May Levitsky at her home Sunday evening to celebrate her eighteenth birthday. Games were played and prizes awarded. A feature of the evening was a big cake containing eight candles representing Miss Levitsky's age. Light refreshments were served and many beautiful gifts received. They left at a late hour, wishing the hostess many more pleasant birthdays.

At a long session of the city court, Tuesday morning with Judge J. H. Barnes on the bench, Henry King and Ida King were each fined \$25 as costs for keeping a disorderly house and for violating the liquor law. They both took appeals.

Thomas Smith, Abby Gilbert, P. McVey and Robert Farrell, who were accused of frequenting the house and as some of them aided the state they were freed.

There were several cases of intoxication before the court and their cases were disposed of.

Of the 22,322 miles of railways in the United Kingdom, 10,306 miles are single lines.

There is a
Magee
Range
in just the style you
want at just the price
